EJAZ AHEMAD

Bachelor of Engineering (Computer Engineering)

Malegaon, Maharashtra | Remote work only | ajjuahmad4321@gmail.com
LinkedIn: https://www.linkedin.com/in/ajaz-ahmad-a00805425/

OBJECTIVE

I collaborate with innovative teams to diagnose and solve their most critical challenges, ensuring maximum efficiency and tangible ROI. I thrive in an environment where my specialized knowledge and deep experience in Computer Science and search engine optimization can be fully utilized to build a shared, enriched knowledge base and deliver best-in-class solutions.

EDUCATION

Bachelor of Engineering (Computer Engineering), Second Class

Rizvi College of Engineering, Bandra West, Mumbai, Maharashtra 400050 (University of Mumbai)
August 2002 – May 2006

- Oracle ERP
- Oracle Developer OCM
- Oracle DBA
- Database Management
- MY SQL/MS SQL Expert

EXPERIENCE

Quality Analyst, Ambab Infotech Pvt. Ltd.

March 2006 – September 2014

Senior Quality Analyst, Ambab Infotech Pvt. Ltd.

December 2014 – January 2020

I have been working at Ambab Infotech as a senior Quality Analyst for the past 14 years in the following aspects:

- QA/Testing Tools
- Performance Testing
- Installation
- Redmine
- Mantis
- Selenium

FREELANCE EXPERIENCE

- Data Annotation Specialist
- AI Prompt Liaison / Feedback Engineer
- AI Model Trainer
- AI Content Reviewer / Evaluator
- Dubbing, Lip syncing
- Search Relevance
- Search Engine Evaluations
- Search Ads Evaluations
- Text and Speech Transcription / Translation
- AI Data Validation

AI and LLM work

- Compare and rank AI model responses against written guidelines, judging accuracy, relevance, tone and instruction-following, with clear written reasoning for each decision.
- Write and refine prompts, including difficult and edge-case prompts, to test how consistently a model follows instructions.
- Review generative AI output for quality and flag hallucinations, unsupported claims and policy violations.
- Label, annotate and validate training data, and check annotated datasets for inconsistencies.
- Rate search results and search ads for relevance and quality against published guidelines.
- Transcribe, translate and quality-check text and speech, and review dubbing and lip-sync output.

AI and LLM skills: Prompt Engineering · LLM Optimization · Generative AI Quality Analysis · AI Data Quality Assurance · Machine Learning Data Annotation · Response Ranking and Judgment · Search Engine Evaluation · Information Retrieval Analysis · Digital Advertisement Quality · Linguistic Data and Localization

GIS ANALYST RESPONSIBILITIES

- Analyzing data through the use of mapping software.
- Discovering patterns and trends through spatial mapping of data.
- Designing digital maps with geographic data and other data sources.
- Creating “shapefiles” to merge topographical data with external data by layering external data over a topographical map.
- Producing maps showing the spatial distribution of various kinds of data, including crime statistics and hospital locations.
- Developing mapping applications and tools.
- Converting physical maps into a digital form for computer usage.
- Performing data munging and cleaning to convert data into its desired form.

KEY SKILLS

- Communication
- Leadership
- Team Management
- Marketing
- Project Management
- Budget Planning
- Social Media
- Planning

COMMUNICATION

Provided an International Enterprise presentation at Hotel Rang Sharda on 15-02-2016 on Enterprise Resource Planning on Automation Quality AI, for which I was awarded for the presentation.

LANGUAGES

- **Native:** English, Hindi, Marathi, Urdu
- **Professional:** Tamil, Gujarati
